What Changed and Why?			
Element	Prelim Said	Now Says	Why it Changed
Spacing and Padding	None	sizes are 4, 16, 8, 24	I confused spacing with line spacing rather than padding and the spacing of elements.
Hex Colors	#757575 Secondary, None on Error	#E6E6E6 Secondary, #A10100 on Error	The Secondary was too dark for an effective contrast, and additionally this one did not do Error.
